Github | **Linkedin** | **Portfolio**

Detail-oriented Front-End Developer with 1 year of experience specializing in building clean, responsive, and user friendly web applications using React.js, Next.js, and Tailwind CSS. Skilled in integrating REST APIs and backend technologies including Node.js and MongoDB. Adept at collaborating with cross-functional teams to deliver high performance, modern UI designs. Strong problem solver with proven ability to write clean, maintainable code and contribute to meaningful projects.

Technical Skills

Front-End: React.js, Next.js, JavaScript, HTML5, CSS3, Tailwind CSS
Back-End: Node.js, MongoDB, Express.js
Tools & Technologies: Git, GitHub, REST API, Stripe, JWT, Recharts, TanStack Query
Soft Skills: Team Collaboration, Time Management, Adaptability

Experience

Junior Software Engineer | NAFCORP Technologies

June 2024 – February 2025 | Melbourne, Australia (Remote)
- Developing responsive, high-quality web interfaces using React.js, Next.js, Tailwind CSS, and JavaScript.
- Collaborating closely with UI/UX designers and backend developers to implement user-focused features and ensure seamless integration

Projects

1. Medical Camp Management System :   **Live Preview**   ↗ **Github**   **Client** - **Server**
- Developed a web app for managing medical camps with registration, details, and payment features
- Developed custom dashboards for participants and organizers to manage profiles, registrations, and feedback
- Implemented JWT for secure access and Stripe for payment processing and transaction tracking.
- Designed mobile-friendly UI with analytics to monitor registration data.
  Technologies: React.js, Firebase, MongoDB, Stripe, JWT, Recharts, TanStack Query, Tailwind CSS

2. Volunteer Management Website :   **Live Preview**   ↗ **Github**   **Client** - **Server**
- Created a user-friendly platform for managing volunteers with secure login and real-time updates
- Enabled posting, updating, and joining volunteer opportunities with responsive design and search functionality.
- Integrated light/dark mode toggle for enhanced user experience.
  Technologies: React.js, Tailwind CSS, Firebase, Node.js, Express.js, MongoDB, JWT

3. Aswad Grocery (Client Project):   **Live Preview**   ↗ **Github**   **Client**
- Developed a real-world eCommerce website featuring product browsing, filtering, and smooth user experience.
- Implemented category-wise filtering and optimized product rendering for performance
- Ensured pixel-perfect design through direct collaboration with the client.
  Technologies: React.js, Tailwind CSS, JavaScript, Firebase

Education

Bachelor of Science in Computer Science & Engineering   2022 - Present
Port City International University   Chattogram, Bangladesh

Certificates

Complete Web Development — Programming Hero | Student ID: WEB10-1713 | Credential: ↗ **View Certificate**
